Dear Dr. Walser,

Thank you for the updated application document. I have read through the
claims and I have only these 3 corrections to suggest:

- Page 55, line 15 (claim 11)
    "or by the client manager and" should be "or by the message client and"

- Page 57, lines 21-22 (claim 17)
    Could it be that the phrase "connecting a message client to a client
manager node of said group of client managers of said server cluster"
does not belong there?

- Page 58, line 19 (claim 20)
    The word "manager" should be removed, i.e. "for enabling a computer to
serve as a message client manager connectable to a server cluster",
should be: "for enabling a computer to serve as a message client
connectable to a server cluster"

Aside from these points I see no probles with the document. If you agree
with these changes, then please incorporate them into the the document.
After that it is ready, from my point of view, to be filed.

Best Regards,
Paul Giotta
